FLOOR LAMPS

# Daylesford

A turned timber dome shade on a slim sage powder-coated stem and base.

Daylesford turns the usual floor lamp upside down: the stem and base are slim steel, powder-coated in a soft sage, and the timber goes on top as a turned dome shade with an opal diffuser beneath. The light falls in a soft circle, and the dome glows at its rim. It's tall enough to read under and slim enough to tuck beside a sofa.
