TASK LAMPS

Karijini

A marri task lamp with a swivelling aluminium joint and a shallow turned timber shade.

Karijini is a desk lamp built around one joint. A bead-blasted cast aluminium ball joint, with a small tension knob, lets the head pivot and swivel to put light exactly where you're working. The stem and the shallow cone shade are turned from marri, the base is a flat plate of orbital-sanded aluminium, and a flush frosted opal diffuser closes the underside of the shade so you see a soft, even glow and never the bulb.

Sizes and prices (AUD, incl. GST)

1600 mm	1600 mm high, 500 mm shade, 600 mm footprint	$2,380

Timbers

- Messmate
- Spotted gum
- Marri
- Tasmanian blackwood (+$290)
