CANDELABRAS

Myall

A long tapering timber bar, lens-shaped in section, carrying a row of frosted opal globes over a dining table or kitchen island.

Myall is a single long bar of solid timber, shaped to a soft lens in section and tapering to rounded ends, hung level on two fine cables with frosted opal globes beneath. The bar is the only piece of timber in the fitting, chosen for its grain. Over a long table it lights the whole length evenly, and from the side it almost disappears.
