WALL SCONCES

Wollemi

A linen drum shade on a slim timber arm, pivoting on a satin aluminium ball joint from a turned timber backplate.

Wollemi is a turned timber backplate, a slim timber arm and a linen drum shade, joined by two small satin aluminium ball joints so the shade can be angled where you need it. The light washes down the wall in a gentle fan, and the timber glows where the light catches its edge. Fitted in pairs, it suits a bedhead or a hallway.
